

License - How to get a license for 2N® Helios IP Manager

2N® Helios IP Manager is free to use for configuration of one 2N® Helios IP unit for unlimited time. In addition there is 30 days trial period during which 2N® Helios IP Manager can be used for configuration of up to five 2N® Helios IP units.

For configuration of multiple devices a license is required. Pricing will be provided by your local reseller. In order to get the license key generated, please follow this procedure:

- Launch 2N® Helios IP Manager on PC where you want to use it. Please note that having the license generated blocks use of the software on any other PC.
- Got to Settings > License panel.
- Click on "Request new license" button and provide the Computer ID which appears in dialog window.
- Based on this ID your license file will be generated.
- After you receive your license file, click on "Add new license file" and upload the license.
