

It is not possible to connect more than 5x 2N® Net Audio Decoder unit

Since sw version 1.4.1 2N® IP Audio Manager comes with licensing policy which contains 800 hour trial license for all features = unlimited RTP destinations + unlimited number of connected 2N® Net Audio Decoder / 2N® Net Audio Decoder Lite units.

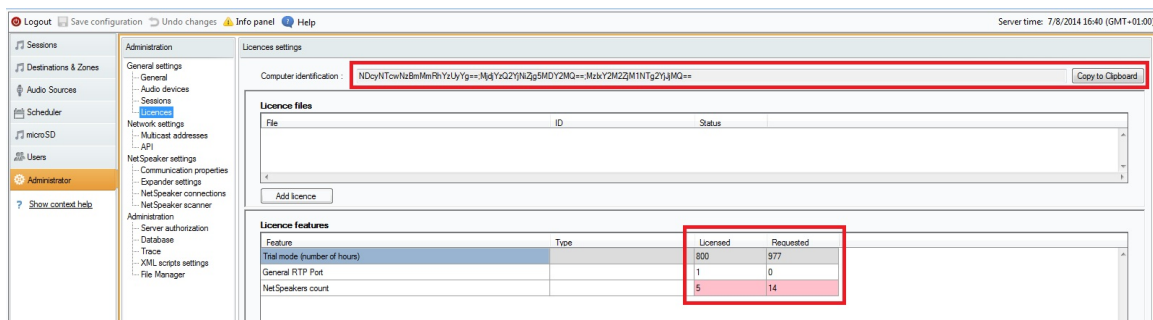

After expiration of the 800 hour trial license you can connect/use:

- 5x 2N® Net Audio Decoder / 2N® Net Audio Decoder Lite units
- 1x RTP destination

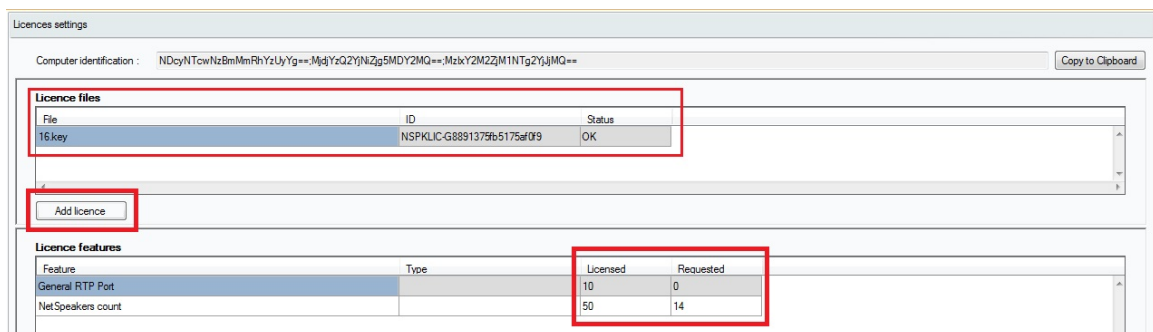

In order to connect more 2N® Net Audio Decoder / 2N® Net Audio Decoder Lite units or to use more RTP destinations, you need to buy additional licenses:

- 914204E 2N® IP Audio Manager - 1x Net Audio Device add on licence
- 914205E 2N® IP Audio Manager - 1x RTP add on licence (3rd party device)

Together with the license order send the Computer identification (use button Copy to Clipboard) of the computer on which is the 2N® IP Audio Manager running. This ID key can be found in menu: Administrator/ Licences - see picture below. For more details contact your sales representative.

Add the license key:
